CONFERENCE GENERAL SESSION AGENDA

DARE TO DREAM

The sky is the limit. Anything imaginable is accomplishable. Don't let excuses, negativity or other people kill your dream and prevent you from accomplishing greatness. This session challenges the attendant to dream and believe in his or her ability to obtain what is conceived in the mind.

THE MOUNTAIN

What are your fears? What do you need to conquer? What obstacles stand in between you and your quest to accomplish greatness? This session prepares the attendant to overcome the multitude of factors that may prevent him or her from standing on the proverbial mountaintop.

DREAM BIG

The size of your dream matters! A person must not be limited by small dreams and low standards. Don't let others box you in or apply self-imposed limitations. This session teaches the conference attendants to raise the sights of their beliefs and expectations.

DREAM NOW

There is no reason to delay. There is no time like the present. "Tomorrow" is not promised to anyone. There is an extreme urgency to DREAM NOW! This high energy session empowers students to unleash their unlimited power and potential with the urgency of, "NOW!"

CONFERENCE WORKSHOPS

GLOBAL LEADERSHIP GROUP WORKSHOP

Overview:

Our framework for opportunity creation is grounded in creating equity vehicles that make equality possible. In many instances, institutional barriers to these opportunities have to be overcome by scaling them instead of knocking them down. This exercise is all about giving teachers and their students the most important skills in leadership, empathy, networking, culturally relevant pedagogy/learning and computational literacy.

While there are hundreds of leadership philosophies, they mostly put leaders (and what makes leaders great) into several categories: advocates, resource connectors, think tanks/thought partners and campaign builders.

The training allows for both the teachers and the students to identify and develop one or all attributes. Through active learning, students will gain the skills and loved experiences that will some day support their barrier scaling while teachers learn how they can be better tools for equities and rungs on the opportunity ladders.

Activity:

In 2015, the United Nations announced a list of 17 Global Development Goals to drive equitable opportunities and innovation creation. These goals guide the world's mission to eradicate poverty and hunger, protect the planet, and ensure prosperity for all. For the goals to be reached, everyone needs to do their part: governments, the private sector, civil society, students and educators. Through this exercise, students and teachers will assume a leadership role in sparking change. They will work in groups to identify their own personal, community and school development goals and produce an action plan to contribute to a sustainable future.

THE COMEDY OF AARON FOSTER

Mark Twain once said, "The human race has one really effective weapon, and that is laughter." The DREAM NOW Conference arms itself with the comedy of Aaron Foster, leveraging the power of laughter to inspire and empower youth.

Aaron is a world renowned, award winning comedy headliner. He has opened for a multitude of entertainers, including comedy giants D.L. Hughley, Bruce Bruce and Andrew "Dice" Clay as well as Grammy award recording artist Jill Scott.

The Chicago native challenges youth to think and laugh at the absurdity of the human experience and charges them to be better.

ENTREPRENEURISM WORKSHOP

On February 27, 2014, President Barack Obama launched the “My Brother’s Keeper” (MBK) Initiative, a call to action to address persistent opportunity gaps faced by boys and young men of color and ensure all young people can reach their full potential. In February 2016, the Administration announced the creation of new STEM and entrepreneurship tracks within MBK. A number of community organizations were selected as community partners and challenged to expand STEM and entrepreneurship opportunities in various communities. The McMikle Group was named as one of those community partners. This workshop was born out of that commitment.

The entrepreneur workshop is an introduction to the concept of business ownership that will allow students to gain an understanding of entrepreneurship as a viable career choice and motivate movement towards a greater exploration of that reality.
